The Soviets are constructing two new railway lines in the Murmansk area. One of these new lines runs north to the Pechenga (69-33N, 31-12E) nickel mines from a point west of Kandalaksha (67-09N, 32-26E) on the Kandalaksha-Kemijärvi (66-40N, 27-25E, Finland) line, which now has a double track. This new line will join another new railway line being constructed between Pechenga and Kola (68-52N, 33-00E).
